Contacted applicant's representative (Mr. Downs) to discuss how to resolve the title of the invention issue outlined in applicant's letter filed on 5/5/2011 in this case. During the telephone conversation, the examiner explained different options for changing the title of the invention by amendment. After explaining the different options with applicant's representative, applicant's representative indicated that there is no need or interest in changing the title of the invention by amendment. Since there is no interest in changing the title of the invention at this time, there is no further action needed in this case. This case is believed to be in condition for allowance.
